Claims 1 and 4-12 and 15-20 are presented for examination.

The amendments and remarks filed on May 7, 2007 have been received and entered.

Claims 1, 4- 12, 15-20 and 34 are rejected under Judially –created doctrine of obviousness double patenting as being unpatentable over claims 1, 3, 6 and 7 of U.S. Patent 6,872,383 for the reasons set forth in the office action of February 6, 2007.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

> (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

The factual inquiries set forth in *Graham* **v.** *John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1, 4-12 and 15-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Asakura et al. (US 5,368,865). Asakura et al. teach the use of the claimed macrolide compounds in a pharmaceutical formulation for the treatment of vernal conjunctivitis, which is an allergic conjunctivitis. See the abstract, column 10, lines 56-64. The claimed range concentration is taught in column 6, lines 30-39. The above reference differs from the claimed invention in the exact concentrations and the kit of claim 34. It would have been obvious to a person skilled in the art to use the claimed concentrations, considering that the prior art teaches the claimed range concentrations. To use a pharmaceutical composition in a pharmaceutically acceptable kit is also considered to be within the skill of the art. The written instruction on a kit does not have any patentable weight, and does not create a patentably distinct composition or a kit.

Applicant's arguments regarding the double patenting rejection have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the patent 6,872,383 is related to the treatment of dry eye and not allergic conjunctivitis. The arguments are not well taken. The prior art is directed to the U.S. Patent is directed to treating an ocular disorder, which covers any ophthalmic disorder, such as allergic conjunctivitis.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
